### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully agrees with Applicants' arguments on pages 9-11 of their amendment stating that Bergman '894 clearly teaches against the use of an electric motor, an electronic controller, and electromechanically biasing the movable subject support couch into the docked position using the mated latch as a first force anchor as explicitly recited in independent claims 5, 9 and 18, respectively; accordingly, all claim rejections under the Bergman '894 reference have been respectfully withdrawn. Furthermore, most of the conventional docking assemblies disclosed by the prior art comprise *only* mechanical components arranged in basic structural configurations such as spring-and-plunger or slot-and-tab constructions, as opposed to the more complex electrical system specifically claimed by Applicants. Since an updated search of the prior art also did not yield any other references pertinent to Applicant's claims, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (571) 272-7048. The examiner can normally be reached on Tues-Fr and first Mondays, 10:30 a.m. to 8:00 p.m..
